

PROTECTION OF METALS  
Volume 15, Numbers 1-6, 1979

(A translation of Zashchita Metallov)

## A

Abdulin, V. S. - 600  
Abramov, Yu. A. - 185  
Adzhiev, B. U. - 386  
Agladze, T. - 213  
Akimov, A. G. - 134, 280,  
447, 585  
Akopyan, L. A. - 94  
Allabergenov, K. D. -  
378  
Altsybeeva, A. I. - 373,  
472  
Amerikov, V. G. - 36  
Andreev, Yu. Ya. - 102,  
196  
Andrushova, N. V. - 166  
Antropov, L. I. - 380  
Antroshchenko, V. P. -  
472  
Artem'ev, V. I. - 45  
Astaf'ev, M. G. - 447,  
585

## B

Babashkina, T. I. - 178  
Balezin, S. A. - 78, 89,  
298, 458  
Barakin, V. V. - 575  
Bardin, V. A. - 73, 184,  
277  
Bartoň, K. - 323  
Bartonicek, R. - 326  
Batrakov, V. P. - 418  
Beloglazov, S. M. - 413  
Belov, O. Kh. - 36  
Belova, V. F. - 573  
Belyaev, V. P. - 45  
Belyakova, A. A. - 357  
Belyi, V. A. - 82  
Benenson, L. A. - 533  
Berezovskaya, V. V. -  
463  
Bespalova, G. N. - 306  
Bestek, T. - 13, 323  
Blinova, V. A. - 354  
Bocharnikov, A. I. - 571  
Bocharov, B. V. - 285  
Bogdanova, T. I. - 296  
Bogolyubskii, S. D. -  
115  
Bokshitskaya, N. A. - 298  
Boldyreva, L. A. - 497

Bondar', K. I. - 278  
Bondar', R. U. - 607  
Borisov, V. A. - 516  
Borodin, I. N. - 507  
Borovskaya, K. I. - 178  
Bratoeva, M. - 192  
Bredikhina, N. V. - 149  
Britvan, V. M. - 510  
Bronshstein, L. A. - 294  
Brusentsova, V. M. - 516  
Brunsikina, V. M. - 285  
Brynza, A. P. - 176  
Bubskaya, V. P. - 589  
Budnevskaya, G. A. - 371  
Bulantsev, V. I. - 472  
Bundzhe, V. G. - 272  
Buraya, T. A. - 32, 174  
Burlak, T. A. - 291  
Burmistrova, A. N. - 523  
Byalobzhetskii, A. V. -  
489

## C

Chankova, E. N. - 520,  
523  
Chebotin, V. N. - 485  
Chechurina, O. I. - 121  
Chekhlataya, I. V. - 520  
Chel'tsova, M. S. - 80  
Chemerkov, L. G. - 494  
Chernenko, V. I. - 587  
Chernova, G. P. - 261,  
525, 533  
Chernyavskii, I. Ya. -  
493  
Chistyakov, B. E. - 520  
Churaeva, M. I. - 245  
Churshukov, E. S. - 121  
Chuvilova, V. A. - 178  
Czerny, M. - 219, 419

## D

Dagurov, V. G. - 134  
Danilova, L. M. - 176  
Davydov, A. D. - 185  
Davydov, S. N. - 265  
Demidenko, A. B. - 278  
Derevenskikh, L. V. -  
269  
Dividkin, B. F. - 139  
Dobos, L. - 213

Dobrolyubov, V. V. - 258,  
351  
Dobrotvorskii, A. M. -  
373  
Dobrovol'skii, I. P. -  
178  
Donchenko, M. I. - 75  
Donin, M. A. - 404  
Doronin, V. M. - 533  
Drobit, V. V. - 301  
Dubrovskaya, V. A. - 571  
Dudina, Z. A. - 92  
Dvornikov, A. S. - 65  
Dzhambazova, L. - 164

## E

Efimov, E. A. - 198  
Efimov, V. A. - 480  
Efimtsev, V. P. - 409  
Efremova, A. G. - 94  
Egorikhin, E. V. - 50  
Egorova, L. V. - 510  
Egorova, T. I. - 63  
Egorova, V. A. - 470  
Ekilik, V. V. - 538  
Elfström, B. - 313  
Elsner, W. - 126, 213  
Enikeev, É. Kh. - 245  
Enina, O. N. - 520  
Evseeva, M. A. - 100  
Evteeva, T. E. - 611

## F

Fainshtein, A. I. - 598  
Faizullin, F. F. - 264  
Falicheva, A. I. - 190  
Fedoseeva, T. A. - 525  
Fel'dgandler, E. G. - 437  
Feofilov, R. N. - 477  
Filatov, P. G. - 121  
Fishman, V. A. - 258  
Florlanovich, G. M. - 346  
Fofanov, G. M. - 100  
Fokin, M. N. - 32  
Fomichev, V. T. - 499  
Fomina, M. A. - 415  
Fostova, V. V. - 494  
Freid, M. Kh. - 579  
Freiman, L. I. - 349, 437  
Fridman, V. S. - 329  
Frolova, L. V. - 280  
Fufaev, A. A. - 294

# G

Gamer, P. U. - 188  
 Gapunina, O. V. - 149  
 Garz, I. - 20  
 Gavrilova, A. V. - 395

## Volume 15, Number 3

May-June, 1979

|                                                                                                                                                                                                                                |     |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|
| Automatic Compensation of Ohmic Potential Difference in Potentiostatic Measurements - T. Agladze, L. Dobos, H. Suschke, V. Makarov, L. Mészáros, and W. Elsner ...                                                             | 213 | 267 |
| The Present State of Research into Atmospheric Corrosion in the Member-Nations of the Council of Mutual Economic Aid (COMECON) - M. Czerny .....                                                                               | 219 | 275 |
| Applications of Arc Metallization to Corrosion Protection and in Mechanical Engineering - J. Wagner and V. Vesely .....                                                                                                        | 223 | 281 |
| Initial Stages of Corrosion and Passivation of Zinc by Adsorption of Oxygen and Water Molecules - Yu. N. Mikhailovskii, P. V. Strekalov, and A. A. Mikhailov .....                                                             | 228 | 288 |
| Corrosion during Heat Exchange - R. Bartonicek .....                                                                                                                                                                           | 236 | 298 |
| An Electrochemical Investigation of the Tendency to Inter-crystalline Corrosion of the Heat-Affected Zone of a 06KhN28MDT Alloy Weld - M. M. Masin, V. M. Knyazheva, L. A. Medvedeva, E. M. Kuzmak, and N. P. Karmazinov ..... | 240 | 303 |
| Corrosion of Aluminum, Copper, and Steel in Aqueous Ethanol - V. P. Perslantsseva, I. L. Rozenfel'd, V. E. Zorina, É. Kh. Enikeev, and M. I. Churaeva .....                                                                    | 245 | 309 |

## BRIEF COMMUNICATIONS

|                                                                                                                                                           |     |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|
| Potential and pH at the Tip of a Developing Corrosion Crack - O. V. Kurov and R. K. Melekhov .....                                                        | 249 | 314 |
| Corrosion of Diffusion-Coated Steel in a Salt Fog - L. I. Pyatykhin and E. A. Mironov .....                                                               | 251 | 316 |
| Pitting of Carbon Steel in a Nitrate Solution - V. S. Novitskii, V. S. Kuzub, V. P. Krikun, and V. A. Moklenko .....                                      | 252 | 317 |
| Resistance of 18-12-Mo Chromium-Nickel Steel to Local Corrosion in Chloride Solutions - S. A. Glazkova and M. B. Shapiro .....                            | 255 | 320 |
| Electrochemical Behavior of 06KhN28MDT Steel in Sulfuric Acid - V. A. Fishman, V. D. Kiselev, V. A. Rogova, V. V. Dobrolyubov, and S. B. Kapilevich ..... | 258 | 324 |
| Anodic Behavior of Nickel and Its Alloys with Iron and Titanium in Hot Water - Yu. L. Golin, G. F. Karaseva, M. A. Salamatova, and S. Yu. Serykh .....    | 260 | 328 |

|                                                                                                                                                                                                                                        |     |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|
| Electrochemical and Corrosion Properties of Cermet Alloys of Titanium with Molybdenum<br>- N. D. Tomashov, G. P. Chernova, and E. G. Manskil . . . . .                                                                                 | 261 | 327 |
| Alkaline Electrochemical Polishing of Aluminum - F. F. Faizullin and F. V. Khabibullina . . . . .                                                                                                                                      | 264 | 331 |
| Influence of Temperature on the Difference Effect for AMg-6 Alloy - E. M. Gutman,<br>S. N. Davydov, and Yu. D. Knyazev . . . . .                                                                                                       | 265 | 332 |
| Filling of an Anode Film on Aluminum in Nickel Sulfate Solutions - A. I. Golubev,<br>A. E. Kul'mizev, and O. A. Pashkova . . . . .                                                                                                     | 266 | 333 |
| Activity of Copper at the Surface of Dissolving $\alpha$ -Brass - I. K. Marshakov,<br>N. V. Vyazovikina, and L. V. Derevenskikh . . . . .                                                                                              | 269 | 337 |
| Anodic Oxidation of Aluminum-Iron Alloy - O. I. Morozova, V. G. Bundzhe,<br>and G. Z. Kir'yakov . . . . .                                                                                                                              | 272 | 340 |
| Intercrystalline Corrosion of Copper in Acids - A. N. Kuzyukov and I. V. Khanzadeev . . . . .                                                                                                                                          | 273 | 341 |
| Electrochemical Behavior of Coatings Obtained by Ionic Deposition in Vacuum<br>- A. I. Kostrzhitskii, O. V. Lebedinskii, and I. L. Roikh . . . . .                                                                                     | 275 | 343 |
| Corrosion Resistance of POIn-52 Indium-Tin Solder - Yu. P. Kovriga, M. G. Yartsev,<br>and V. A. Bardin . . . . .                                                                                                                       | 277 | 346 |
| Improving the Protective Capability of Zinc Coatings by Nonstationary Electrolysis<br>- N. A. Kostin, A. B. Demidenko, and K. I. Bondar' . . . . .                                                                                     | 278 | 347 |
| X-Ray - Electron Investigation of Inorganic Inhibitors on the Surface of Iron<br>- I. L. Rozenfel'd, L. P. Kazanskii, A. G. Akimov, and L. V. Frolova . . . . .                                                                        | 280 | 349 |
| Effect of Corrosion Inhibitors on the Kinetics of Electrode Reactions on Magnesium<br>- M. V. Shabarova . . . . .                                                                                                                      | 283 | 352 |
| $\beta$ -Diethylaminopropionic Acid and Its Derivatives as Corrosion Inhibitors for Metals in<br>Neutral Media - I. L. Rozenfel'd, Yu. I. Kuznetsov, M. M. Talybov,<br>V. M. Brusnikina, B. V. Bocharov, and A. A. Lyashenko . . . . . | 285 | 355 |
| Correlation between Inhibitory Action and Electron Structure in 2-Aminothiazoles<br>- V. P. Mal'tseva and A. P. Momenko . . . . .                                                                                                      | 288 | 359 |
| Relation between the Surface Activity of Corrosion Inhibitors at an Air-Medium Boundary<br>and Their Protective Capability - L. N. Petrov, T. A. Burlak, and B. G. Klymkiv . . . . .                                                   | 291 | 362 |
| Protective Properties of Certain Plastic Lubricants - I. M. Mel'nichenko<br>and M. I. Kuz'menkov . . . . .                                                                                                                             | 293 | 364 |
| Oil-Soluble Corrosion Inhibitors Based on Mixtures of Petroleum Sulfonates and Synthetic<br>Sulfonates - L. I. Kopylov, Yu. N. Shekhter, A. A. Fufaev, E. K. Ivanova,<br>V. D. Milovanov, and L. A. Bronshtein . . . . .               | 294 | 365 |
| Petroleum-Based Preservatives - V. D. Milovanov, V. N. Karel'skii, Yu. N. Shekhter,<br>E. A. Konstantinov, and T. I. Bogdanova . . . . .                                                                                               | 296 | 368 |
| Effect of Ethylating Components on Corrosion of Automobile Engine Parts<br>- M. L. Rutkovskii, N. I. Ostannil, T. A. Poznyak, N. L. Khar'kovskaya,<br>N. A. Bokshitskaya, I. S. Solodkin, and S. A. Balezin . . . . .                  | 298 | 370 |
| Preparation of Heat-Resistant Diffusion Coatings on Niobium - V. F. Shatinskii,<br>V. V. Drobit, M. S. Golkhman, and M. F. Zamora . . . . .                                                                                            | 301 | 373 |
| Adhesion of Lead-Silver Alloys to Iron - T. V. Zakharova, S. I. Popel',<br>and A. Yu. Novozhilova . . . . .                                                                                                                            | 303 | 376 |
| Pulsed Electrodeposition of Paint and Varnish Materials - G. N. Bespalova,<br>V. E. Myasoedov, and V. K. Gorshkov . . . . .                                                                                                            | 306 | 379 |
| Composition and Phase Structure of Electrodeposited Tin-Nickel Alloy - A. I. Zhikharev<br>and I. G. Zhikhareva . . . . .                                                                                                               | 307 | 381 |
| Potentiostat for Corrosion Research, Based on an Integrated Microcircuit - M. V. Matveev,<br>E. K. Rudenko, and I. B. Ulanovskii . . . . .                                                                                             | 309 | 383 |
| Planning Corrosion Experiments - N. P. Zhuk . . . . .                                                                                                                                                                                  | 310 | 384 |

|                                                                                                                                                                                                                                                                                                                                                                           |     |     |

| Corrosion of Metals in the Atlantic Ocean - I. B. Ulanovskii . . . . .                                                                                                                                   | 563 | 697 |
| Influence of Dislocation Density and Mobility on the Tendency of Steel to Sulfide<br>Cracking, and Effectiveness of Inhibitors in Protecting the Steel<br>- L. S. Livshits and M. L. Medvedeva . . . . . | 566 | 700 |
| Influence of Added Benzimidazole on the Corrosion and Electrochemical Behavior<br>of Chrom Steel in Hydrochloric Acid - A. N. Lomakin . . . . .                                                          | 569 | 703 |
| Pyrazole Derivatives as Inhibitors of Hydrogen Sulfide Corrosion of Carbon Steel<br>- A. I. Bocharnikov, A. A. Sorochenko, V. Ya. Mudrakova, V. I. Seraya,<br>and V. A. Dubrovskaya . . . . .            | 571 | 705 |
| Influence of Ammonium Tetraborate on Corrosion Fatigue in Steel 10<br>- V. I. Mikhailov, V. G. Skvortsov, Sh. V. Sadetdinov, V. V. Romanov,<br>G. I. Yakhvarov, and V. F. Belova . . . . .               | 573 | 706 |
| Fine Structure, Electron Work Function, and Corrosion Resistance of<br>Electrolytic Iron - V. V. Barakin and G. N. Gleinikov . . . . .                                                                   | 575 | 708 |
| Anodic Behavior of Iron in Perchlorate Solutions of Different Acidities<br>- A. M. Sukhotin and M. V. Mikhaleva . . . . .                                                                                | 577 | 710 |
| Corrosion and Electrochemical Properties of a Boride Coating on Molybdenum<br>in Acid and Alkaline Media - K. P. Lesnikova and M. Kh. Freid . . . . .                                                    | 579 | 713 |
| Influence of Grain Boundaries on the Corrosion and Electrochemical Behavior of<br>Copper in Sulfuric Acid Electrolytes - G. V. Khaldeev, V. F. Knyazeva,<br>A. B. Volyntsev, and L. V. Spivak . . . . .  | 583 | 717 |
| Anodic Oxidation Products of Copper - A. G. Akimov, A. E. Gorodetskii,<br>I. L. Rozenfel'd, and M. G. Astaf'ev . . . . .                                                                                 | 585 | 720 |
| Anodic Process in an "Ematalizing" Anodization Electrolyte - G. B. Rozenboim,<br>N. G. Krapivnyi, V. N. Osipov, and V. I. Chernenko . . . . .                                                            | 587 | 722 |
| Anodic Polishing of Zinc in an Ethylene Glycol Solution of its Chlorine - A. I. Turashev<br>and V. P. Bubskaya . . . . .                                                                                 | 589 | 724 |
| Influence of a Tangential Temperature Field on Corrosion of Nickel in a Chloride Melt<br>- V. P. Volodin and N. V. Prasol . . . . .                                                                      | 591 | 726 |
| Corrosion Mechanism of Materials in Contact with a Mixture of $K_2CO_3$ and $K_2SO_4$<br>- V. N. Gulyaev, V. B. Kiriluv, and A. I. Savostikov . . . . .                                                  | 593 | 728 |
| Influence of Neutron Irradiation of the Oxidation of Single Crystals of Vanadium<br>- L. N. Larikov, N. P. Plotnikova, and V. N. Primushko . . . . .                                                     | 595 | 730 |
| Mechanism of Adhesion of Vacuum Condensates to Metals - A. I. Fainshtein,<br>N. A. Litovchenko, and T. L. Roikh . . . . .                                                                                | 598 | 733 |
| Corrosion Resistance of Bright Nickel Coatings Obtained by a Pulse Current<br>- N. A. Kostin, V. A. Zabludovskii, and V. S. Abdulin . . . . .                                                            | 600 | 735 |
| Effect of Surface Pretreatment on the Properties of Nickel Coatings - L. M. Kurvyakova,<br>I. V. Pimenova, and L. V. Misyureva . . . . .                                                                 | 602 | 737 |
| Effect of Organic Additives in the Cathodic Process in an Ammonium Chloride Zincing<br>Electrolyte - Sh. G. Pilavov and N. N. Migal' . . . . .                                                           | 604 | 739 |
| Electrodeposition of Nickel-Manganese Alloy from a Sulfamate Bath - R. U. Bondar',<br>V. M. Nagirnyi, and A. N. Karlukova . . . . .                                                                      | 607 | 742 |
| Chemical Rhodium Plating with Sodium Borohydride - Ya. I. Val'syunene<br>and A. Yu. Yuryavichyus . . . . .                                                                                               | 609 | 744 |
| Chemical Metallization of Diflon - S. G. Kulikovskaya, N. A. Mikhailova,<br>T. E. Evteeva, and T. I. Korovina . . . . .                                                                                  | 611 | 747 |
| A Mathematical Model of Corrosion of Vitreous Enamel Coatings - S. I. Volkov,<br>V. M. Mizonov, N. S. Smirnov, and B. M. Shabrov . . . . .                                                               | 614 | 750 |
| <b>BIBLIOGRAPHY</b>                                                                                                                                                                                      |     |     |
